Meter Revenue: Meter revenue is comprised of both single space and multi space meters on the street and in lots as well as multi space meters located inside the City Hall and 42nd Street Garages. Meter revenues variances are driven by many variables which include, but are not limited to, road and sidewalk construction, closed streets and location of events held in the City. Meter revenues decreased in the current year due to construction related projects.

Enforcement: The City received a share of ticket citations for parking violations that occur in Miami Beach and are collected by Miami-Dade County. Enforcement revenues decreased due to the combination of construction on major roadways and the transition and debugging of License Plate Recognition (LPR) hand devices.

Garages: Revenues are comprised from transient, monthly, and flat rate special event rates. Garage revenue variances are driven by many variables which include, but are not limited to, special events, weather, and tourism.

5th and Alton Garage: The 5th and Alton Garage is a joint development (parking garage) with the "Developer" (Edens) containing 1,080 parking spaces. The Developer and City own 54% and 46% of the parking spaces, respectively, and profit/loss is also shared in the same manner. The City's revenue portion (46%) for the month of January 2015 is \$59,356.06, resulting in total net profit of \$11,845.87. Pursuant to the Development Agreement, the City receives its proportionate share of profit or must subsidize any loss. The City and Developer continue to jointly pursue initiatives to promote the use of the garage. These initiatives include but are not limited to "after hours" flat rate parking; valet parking storage; monthly parking; and strategically placed electronic signage directing users to the facility. Future considerations include promotional rates for "after hours and park and ride options to the entertainment districts.

Permit Sales: On August 30th, 2013, the City received notification from iPark, the manufacturer of the in-vehicle parking meter, that it was ceasing operations, effective immediately. iPark users will continue to be honored until their existing balances are depleted or can request a refund. The negative balance is caused by customer refunds. The increase in valet & space rental was due to the payment of \$240,000 received for the permanent removal of 6 spaces at \$40,000 each, as a result of the hotel project located on 29th street & Collins Avenue.

Preferred Lot: This lot is located in the front of the Convention Center, and variances are contingent on convention center events.

Miscellaneous Revenue: This category consists of other accounts including a revenue share from Deco Bike, advertising revenue, interest, etc.

Pay by Phone: The City Commission awarded Parkmobile to provide pay by phone services. Pay by phone provides enhanced functionality over the in-vehicle parking meter. Miami Beach residents will continue to enjoy the resident discount on the hourly meter rate, from \$1.75 to \$1.00 per hour (43% discount), in the South Beach area. Moreover, Parkmobile will assess no transaction fees to Miami Beach residents for pay by phone service. Parkmobile began services on May 12, 2014. The revenue shown above represents the transaction fees collected by the City for non-resident transactions and remitted to Parkmobile in the following month.

COMMISSION MEMORANDUM

TO: Mayor Philip Levine and Members of the City Commission

FROM: Jimmy L. Morales, City Manager

DATE: April 15, 2015

SUBJECT: **INFORMATIONAL REPORT ON CAPITAL OR INFRASTRUCTURE PROJECTS AWARDED PURSUANT TO THE NATIONAL JOINT POWERS ALLIANCE (NJPA) COMPETITIVELY SOLICITED CONTRACT FOR CONSTRUCTION SERVICES**

Section 255.20, Florida Statutes exempts construction projects under \$300,000 from formal competitive solicitation requirements. Nonetheless, the Administration believes it is prudent to establish a process, which includes assuring that qualified contractors are performing the work and competitive pricing, when awarding projects under the threshold established in Florida Statutes, while still expediting the award and completion of these projects. With these goals in mind, the Administration has pursued utilizing a process known as indefinite quantity contract (IQC) for construction services. The IQC process is used extensively by the local, state and federal governmental agencies throughout the United States to expedite the delivery of construction projects. The City Commission, at its April 23, 2014, meeting approved a recommendation by the Administration to utilize the IQC process to expedite the delivery of construction projects under \$250,000 or for emergency projects as approved by the City Manager.

The City, as a governmental agency member, is authorized to utilize the IQC contract for construction services competitively awarded by the National Joint Powers Alliance (NJPA). Additional information on the NJPA IQC contract is included in the attached Contract Award Memo which provides guidelines for using the NJPA contract. Following is a list of projects awarded pursuant to the NJPA IQC contract for construction services for the period since the prior City Commission meeting.
